

In-Kind Contribution Record

Threads of Life relies on crucial in-kind donations of services and products to help us meet our objectives to help families of workplace tragedy. When you provide an account of all products and services – including (especially) your time – that you have provided in support of Threads of Life, you are showing our grant providers and partners the strong community support we have. This strengthens our requests for project funding.

(Volunteer,	Company, et	c.)	:
